## About Us

Paramount Serenity Home Health Services, LLC (PSHHS) is a Home Health Agency, located in Virginia, providing Skilled and Non-Skilled Nursing Services, Private Duty Nursing and other Medical services to clients and individuals requiring services in their homes and communities.

## Our Story

Paramount Serenity Home Health Services, LLC (PSHHS) was founded by three sisters who are all Registered Nurses with a combined experience of over 50 years in the healthcare area. The decision to go into home health care came from the desire to serve others, and to address inefficiencies in the home health care industry. Due to the significant increase in healthcare cost for inpatient hospitalization, research has proven that home health services enable clients to receive Skilled Nursing Services care in their homes, reducing complications and decreasing the time needed for recovery, while decreasing cost for out of pocket expenses for the clients.

## Our Mission

To effectively enrich the quality of life of our clients we serve by assessing and fully understanding their individual needs with dignity and respect in their homes, and providing all inclusive, individualized services for a healthier tomorrow.

## Who We Serve

Pediatrics, Adults and Seniors, including individuals with Intellectual disabilities (ID) and Developmental Delays (DD).

## Our Services

**Paramount Serenity Home Health Services, LLC** provides complete skilled and non-skilled services to our Pediatrics, Adults and Senior clients. Regardless of your care needs, our team of professionals is ready to partner with you, your family and other members of your Health Care Team to provide you with exceptional quality of care in your home.
